

California OES Weather Threat Briefing

Sunday, July 28, 2019
9:00 AM PDT

Day 1: Moderate heat related impacts in the Southern and Inland Regions. People most vulnerable include those who are spending lots of time outdoors, those who do not have air conditioning, young children, the elderly, and those with chronic ailments.

National Weather Service
Western Region Headquarters
Regional Operations Center
Salt Lake City, UT

WEATHER KEY POINTS

07/28/19 - 08/03/19

Sunday

- Hot weather will continue across the state
 - Widespread moderate heat risk impacts are expected across portions of Inland Region and the Southern Region desert areas today

Monday-Tuesday

- Warm, breezy, and dry conditions will continue to produce elevated fire weather concerns for portions of the inland areas early next week
- A cooling trend will start to significantly reduce heat impacts across the state
- Monsoon moisture will begin to return on Tuesday with a slight chance of showers and thunderstorms over portions of the Southern Region

Wednesday-Saturday

- Cooler weather will continue with little heat impacts expected across most of the state, with heat risk impacts increasing late in the week over the desert portions of the Southern Region
- The threat of showers and thunderstorms continues over portions of the Southern Region through late in the week
